DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 28, 2004 has been entered.
2. Claims 1, 7, 11, and 17 are currently pending in this application. Claims 2-6, 8-10, 12-16, and 18-30 have been cancelled.

Specification

3. The disclosure is objected to because of the following informalities: claim 1 contains the limitations "a channel for the flow of air" and "the channel" that have no proper support from the specification.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. Claims 1, 7, 11 and 17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Art Unit: 1711

Claim 1 contains the limitations, “the second electrode includes two or more surfaces defining a channel for the flow of air” and “the channel further redirects the flow of air at an angle away from the downstream direction” that have no support in the disclosure as originally presented.

Claim 11 contains the limitations, “the air outlet having a first width”, “an ion generating arrangement”, and “ having a second width smaller than the first width” that have no support in the disclosure as originally presented.

5. Claims 11 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 11 is indefinite due to the use of “ion generating arrangement”. If Applicants mean to indicate this as an ion generating unit, please state so.
